Project Roadmap

RE: **Truth Navigation: Empowering Equity-Seeking Groups through Digital Research Infrastructure with Automated Fake News Detection Case Study**

September 2024

- **Project Kickoff**: Assemble the project team, define roles and responsibilities, and conduct a kickoff meeting.
- **Initial Research and Planning**: Conduct thorough research, gather requirements, and finalize the project plan based on feedback from focus groups and surveys.

October 2024

- **Design Phase**: Develop detailed training materials and resources for DRI tools, and review them with stakeholders for feedback.
- **Resource Allocation**: Secure necessary resources, including high-performance computing (HPC) resources, data management services, and training materials.

November 2024

- **Development Phase**: Begin the development of training programs and materials, ensuring adherence to the project plan and timelines.
- **Regular Check-ins**: Hold bi-weekly meetings to monitor progress and address any issues.

December 2024

- **Testing Phase**: Conduct pilot training sessions to test the effectiveness of the developed materials and gather feedback.
- **Quality Assurance**: Implement quality assurance processes to identify and rectify any issues with the training materials.

January 2025

- **Implementation Phase**: Launch the full-scale training programs, including interactive workshops, webinars, and peer-to-peer training sessions.
- **Training and Support**: Provide ongoing support for participants, including access to mentors and additional resources.

February 2025

- **Monitoring and Evaluation**: Continuously monitor the project's performance and evaluate its impact through surveys and feedback from participants.
- **Adjustments and Improvements**: Make necessary adjustments to the training programs based on feedback and performance metrics.

March 2025

- **Project Completion**: Finalize all project activities, ensuring all objectives are met.
- **Final Review and Reporting**: Conduct a final review meeting, document lessons learned, and prepare a comprehensive project report.
